Product Description

31-40 seater diesel road tourist traffic bus rear rear drive 6×2

The diesel-powered tourist coach, also known as a tourist bus, is a large passenger vehicle designed specifically for tourism and long-distance transportation. Here is an introduction to this type of diesel bus:

Body and seating capacity: The diesel-powered tourist coach features a spacious body and a high seating capacity, accommodating typically 40 to 50 passengers. The interior is designed with comfortable seats and ample legroom to provide passengers with a pleasant and comfortable travel experience.

Our Product

Engine performance: These tourist coaches are equipped with powerful and efficient diesel engines, delivering sufficient power and torque for long-distance travel and carrying heavy loads. Diesel engines are known for their fuel efficiency and durability, making them suitable for extended travel durations.

Comfort and convenience amenities: The diesel-powered tourist coach is equipped with various amenities to enhance passenger comfort and convenience. These may include comfortable reclining seats, air conditioning systems, onboard entertainment systems such as audio and video players, Wi-Fi connectivity, and ample luggage storage compartments.

Safety features: Safety is a top priority in tourist coaches, and they are equipped with advanced safety features. These may include seat belts for all passengers, emergency exits, fire suppression systems, anti-lock braking systems (ABS), electronic stability control (ESC), and surveillance cameras for enhanced security.

Long-distance and tourism applications: The diesel-powered tourist coach is specifically designed for long-distance travel and tourism purposes. It is commonly used for sightseeing tours, airport transfers, hotel shuttles, and transportation of tour groups. These coaches are equipped to handle different terrains and provide a comfortable and safe travel experience for passengers.

In summary, the diesel-powered tourist coach is a large passenger vehicle designed for tourism and long-distance transportation. With its spacious body, powerful diesel engine, comfortable amenities, and emphasis on safety, this type of bus caters to the needs of tourists and provides a reliable and enjoyable travel experience.
