Basic Information

- Place of Origin: China
- Brand Name: Road tourist traffic bus 11-12 meters 33-50 seats diesel rear drive 6×2
- Model Number: Road tourist traffic bus 11-12 meters 33-50 seats diesel rear drive 6×2
- Minimum Order Quantity: 1 vehicle
- Price: 60,000-80,000 US dollars
- Packaging Details: Complete vehicle
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 1000 vehicle

Product Specification

- Accessories: Curtains, Blinds, Fridge, Toilet
- Brakes: Air Brakes
- Capacity: 50 - 70 Passengers
- Engine: Diesel Engine
- Entertainment System: DVD, CD, Radio, PA System
- Exterior: Fiberglass Body, Aluminum Wheels
- Interior: Air Conditioning, Reading Lights, Footrests
- Lighting: LED Lights
- Seats: Reclining Seats
- Steering: Power Steering
- Suspension: Air Suspension
- Transmission: Automatic Transmission
- Type: Coach Tour Bus
- Highlight: 12m 50 Seater Luxury Bus, 11m 50 Seater Luxury Bus, 11m 33 Seater Coach

Product Description

Road tourist traffic bus 11-12 meters 33-50 seats diesel rear drive 6×2

The 40-50 seat diesel-powered tourist bus is a large passenger vehicle designed specifically for tourism and long-distance transportation. Here is an introduction to this type of diesel bus:

Body and seating capacity: The 40-50 seat diesel-powered tourist bus features a spacious body and a high seating capacity, accommodating 40 to 50 passengers. The interior is typically equipped with comfortable seats and ample legroom to provide passengers with a comfortable riding experience.

Engine performance: These diesel buses are equipped with efficient and reliable diesel engines, delivering ample power and torque to meet the demands of long-distance travel and heavy loads. Diesel engines typically offer high fuel efficiency and lower emission levels.

Comfort and convenience amenities: The 40-50 seat diesel-powered tourist bus is often equipped with comfortable seats, air conditioning systems, entertainment facilities such as audio systems and displays, and spacious luggage storage areas. These amenities are designed to provide passengers with comfort and convenience during their journey.

Safety features: Safety is a priority for these large buses, and they are typically equipped with advanced safety equipment such as seat belts, emergency exits, slip-resistant flooring, fire suppression systems, and emergency braking systems. These features help ensure passenger safety and enhance the overall safety performance of the vehicle.

Long-distance and tourism applications: The 40-50 seat diesel-powered tourist bus is suitable for tourism and long-distance transportation purposes. They are often used for transporting tour groups, airport shuttle services, city sightseeing tours, and other scenarios that require high-capacity passenger transport.
