

White 17 Seater Coach Tour Bus Tourist Road Diesel Electric

Basic Information

. Place of Origin: China Brand Name: Fushunt

Model Number: Tourist road bus 17-seater diesel bus front

rear drive 6×2 manual

transmission/automatic transmission

. Minimum Order Quantity: 1 vehicle

• Price: \$30,000-\$40,000Dollar Packaging Details: Complete vehicle . Delivery Time: 5-8 work days

• Payment Terms: T/T

Supply Ability: 1000 vehicle

Product Specification

· Accessibility: Wheelchair Accessible

Brakes: Air Brakes 17

· Capacity:

High Performance • Engine:

• Fuel: Diesel

Air Conditioned • Interior: Interior Lighting . Lighting:

Large Luggage Compartment · Luggage:

• Restroom: Onboard Restroom

Seat Belts Safety: Reclining Seats Seats: Coach Tour Bus Type: Video: Flat Screen TV

Windows: Large Viewing Windows · Highlight: 17 Seater Coach Tour Bus,

Product Description

Tourist road bus 17-seater diesel bus front rear drive 6x2 manual transmission/automatic transmission

A 17-seat diesel passenger bus is a type of vehicle designed to transport a relatively large number of passengers in a single trip. It is typically powered by a diesel engine and provides comfortable seating for up to 19 individuals.

The diesel engine in a 17-seat passenger bus is known for its durability, efficiency, and torque. Diesel engines are well-suited for applications that require high power output and fuel efficiency, making them a popular choice for larger vehicles like buses. The engine is designed to provide sufficient power to propel the bus and its passengers while maintaining good fuel economy.

The interior of a 17-seat diesel passenger bus is designed to provide comfort and safety for the passengers. It typically features comfortable seating arrangements with ample legroom and headroom to ensure a pleasant journey. The seats are often padded and ergonomically designed for long-distance travel.

In terms of safety features, a 17-seat diesel passenger bus may include features such as seat belts for each passenger, airbags, anti-lock braking systems (ABS), and stability control systems. These features are intended to enhance passenger safety and provide a secure travel experience.

The diesel passenger bus may also come equipped with amenities to enhance passenger comfort and convenience. These may include air conditioning or climate control systems to maintain a comfortable temperature inside the bus, entertainment systems such as multimedia screens or audio systems, and storage compartments for luggage or personal belongings.

Vehicle	technical parameters			
1	Car body dimensions (length × width × height) mm:	6450×2098×2360 (medium top), 2620 (high top)		
2	engine manufacturer	Jiangling Motors Co., Ltd.		
	Vehicle manufacturer	Jiangling Motors Co., Ltd.		
3	Wheelbase mm:	3750		
4	Vehicle fully loaded total mass	4250		
	kg:			
5	Vehicle curb weight kg:	2870
