## Product Description

Ford Transit 10-18-seater diesel road tourist bus front-engine rear-wheel drive 6×2 manual transmission/automatic transm

A 17-seat passenger van is a commercial vehicle designed to accommodate up to 17 passengers. This type of van is commonly used for long-distance travel, urban shuttle services, tourism, and group transportation.

A 17-seat passenger van typically features a large body design to provide spacious passenger room and a comfortable riding experience. It often has a multi-row seating layout, including the driver's seat and passenger seats, to accommodate the desired number of passengers. The seats are usually designed with comfort in mind, using comfortable materials and ergonomic design to provide good support and seating comfort.

These vans are commonly equipped with an air conditioning system to ensure passengers enjoy a comfortable indoor temperature in various weather conditions. Additionally, some modern passenger vans may have entertainment systems such as audio systems, video screens, and wireless connectivity to provide additional entertainment and convenience features.

17-seat passenger vans are typically equipped with powerful and fuel-efficient engines to meet the demands of long-distance and multi-passenger transportation. They often have well-designed suspension systems and stability control for smooth driving and a comfortable ride.

Safety features are also incorporated into these vans, including seat belts, airbags, and anti-lock braking systems, to provide passenger and driver safety. Additionally, passenger vans may have emergency exits, fire extinguishers, and emergency alarm systems for emergency situations.

In summary, a 17-seat passenger van is a commercial vehicle designed for multi-passenger transportation, suitable for long-distance travel, group transportation, and tourism purposes. They offer spacious passenger room, comfortable seating, air conditioning systems, and various convenience features, along with powerful engines and safety equipment, providing passengers with a safe, comfortable, and enjoyable riding experience.
